About This Game

Semispheres is a meditative parallel puzzle game that places dual realities at the heart of its challenge.

Its unique single-player split-screen mechanic challenges your brain by putting you in control of two characters at the same time.

Your left and right side must work together to unfold the mystery by solving clever puzzles in an entrancing ambience.

Using portals and other abilities to avoid sentries, devise and execute your plan, reuniting the parallel worlds of Semispheres.

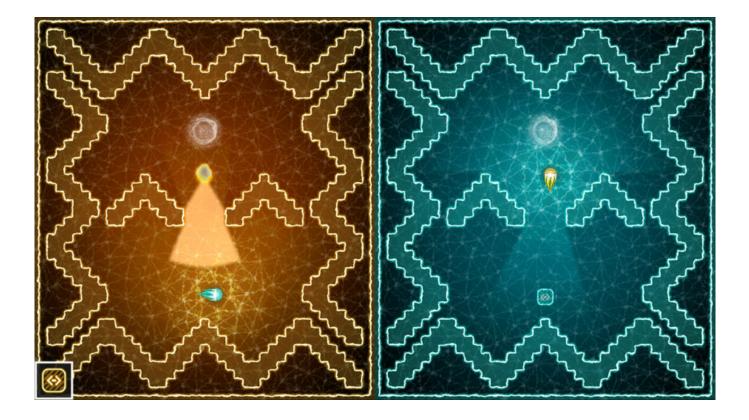

Key Features:

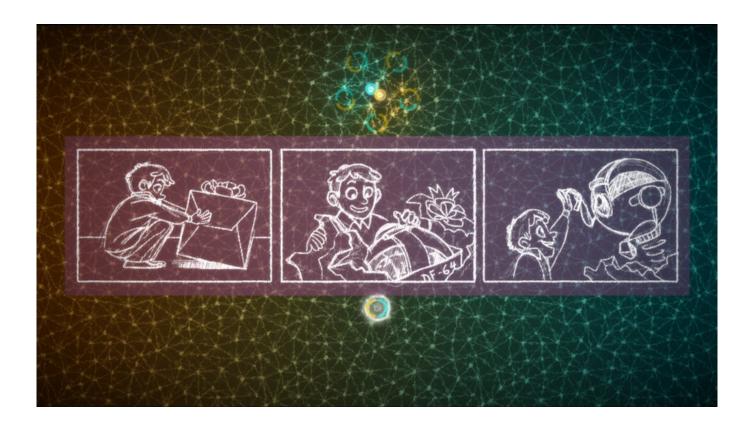

- More than 50 levels, each building on top of each other, culminating with fiendishly complex puzzles
- Stealth-inspired gameplay, including abilities like noise-makers, portals, side-swapping, teleporting and more
- Immersive ambient soundtrack by Sid Barnhoorn, composer for Antichamber, The Stanley Parable and Out There
- Mesmerizing and soothing bichromatic art style comprised of warm blues and oranges
- A heartwarming story about a boy and his robot, unfolding in parallel with the puzzle progression

Tight, clever gameplay. Makes you feel smart when you solve some of the devious later game puzzles. Love that it doesn't overstay its welcome; it focuses on exploring the parallel mechanic and doesn't give you hours of repetitive filler. The narrative comics are simple yet engaging.. Unique, short puzzler with a solid presentation and solid design.. Smart "two-sticks" puzzle. Gradual new features and way to make you struggle.

Sadly the visual and overall experience is a bit limited in term of global experience.

A good enough puzzle game but the competion is though in this genre. Not recommanded at full price.. This game truly outdone my expectations. I recommend it to anyone looking for a creative and satisfying puzzle challenge.

The creativity in this game is far beyond the last five COD games put together! Just go for it!. Full disclosure: I know the developer and I have played in development versions of this game in the past.

Semispheres is a great puzzle game about planning ahead. Attempting to navigate both halves of each puzzle simultaineously can occasionally tax your dexterity, but very rarely are you required to do that. Most, if not all, of the puzzles can be solved in small steps, moving one stick at a time. If you are into puzzle games, but are worried that splitting your attention between two different independent characters would be frustrating, that isn't the focus of this game. And honestly, it feels good to just swim the two little squid guys around.

That said, the times that I did solve both sides of the puzzle simultaneously were very satisfying, and I would have been happy with some levels that required that sort of plan, practice, execute loop. Thumb gymnastics might not be for everyone, but I think it would make a nice addition to the core package of semispheres. I can understand not including those types of levels in the main story mode though. As caveates go, wanting more of an already satisfying, enjoyable game is hardly a criticism. I really enjoyed my time with the game, and I could see myself revisiting it when I have forgotten the puzzle solutions.. This is an excellent puzzler with a very enjoyable meditative soundtrack (the music and atmosphere reminds me particularly of OSMOS).

I found it to be very well paced, with the new mechanics building nicely level over level. Some of the more difficult levels consistently mess with my brain.

Puzzle//Stealth fans should abosolutely check this out. I know the dev, have watched this game develop, and played it multiple times at various public demos. It is truly a must play for me and should be a must play for any puzzle game aficionado!

FEED YOUR HEAD.. It's an interesting entry in the "two ships at the same time" genre, but I liked Schizoid for Xbox way better. The puzzle design is weak and the story just isn't pulling me in. Most levels are simple enough that you would expect that there's only a single solution that requires some degree of cleverness to spot or dial in, but that only happens one time in ten. The other 90% of the time in this game, it just feels like "I don't get it--I can just do this, or this, or this," and a solution is easy to pull out. Having a par time to beat might make it more fun, as would more cases where truly simultaneous is required.. I came primarily for Siddhartha Barnhoorn's awesome ambient music, but the rest of the game is good as well. It's a relatively minimalist puzzle/stealth/atmospheric game.

NB for those not playing with a dual-stick controller, it's gonna be a real coordination challenge....unless I'm mistaken and it's a challenge regardless. Either way, even if you don't have dyslexia this game will make you feel like you're playing with it!

Judging by the achievements seen and my playtime so far, I estimate this game lasts roughly 2\u00bd hours....

...and that's exactly how long it lasted for me.. A really cool and zen puzzle game. It reminds me of Brothers: A tale of 2 sons with controlling two characters at once, except each has its own side of the screen now. There's some interesting mechanics that take advantages of that too, like portals, space swapping, and line teleporting which really demands you to think about what you're doing. There's also a lack of filler content which I highly appreciate as you go straight to puzzles.

The soundtrack is fantastic as well, very calming and surreal.

Overall a great puzzle game, highly recommend picking this one up., Full disclosure - I had the honour of getting to play this at GDC in 2016, am a big fan of this developer, and was eagerly awaiting the release. I've always been impressed by this game.

To me, this is a gem and an example of a really well made game. It is easy to play, and difficult to master. The soundtrack is perfect. The art is cute and unique (and you'll always recognize a semispheres level when you see one). I'm a bit old, so it really does do a bit of a workout on my brain. If I was to pick one mechanic I love, it is the guards.

Now, I'm an indie by trade and a strong believer of the indie scene. What does that mean? Well, realistically, if you buy this game, your cash is going to a small indie developer that did something super cool so he can spend time to make something even better. This is really a strong game from an indie developer, and I'd buy this over an E.A. title any day. \u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50\u2b50

The one problem with this game is that it's short. There are lots of levels, but each is only a single screen, and many of them are quite easy. I finished the whole thing in two hours, but I still feel I got my money's worth.
